THE

# JELLYBEANS

Did you know that babies develop their motor skills very early and work towards holding a paint brush at the age of 6 months!

Designed by a team of childcare experts and your very own early year's team, we hope you enjoy these fun and creative activities!

The Guppies Program was developed uniquely for Norwegian Cruise Line to give parents the chance to share many baby first experiences.

**Thank you for joining us!**

Our Guppies activities are chosen to ensure your babies have the chance to explore and play rather than focusing on the end product. We hope you and your child had a lot of fun.

On behalf of La La (Early Years Coordinator) and all the Breakaway Youth Staff, we hope you had a great time with us this cruise and we hope to see you again soon.

Have a safe trip back home!

***Parents, please note that all activities are subject to change.***

### NORWEGIAN BREAKAWAY YOUTH SAFETY INFORMATION

In case of emergency, it is important for parents to know their assembly station information and be familiar with their assembly location number and/or letter. This information can be found on the guest key card and on the back of the stateroom door.
